## green, white, and blue porcelain penny tiles

“Go rogue! For a backsplash with attitude, make your own pattern with mesh-backed penny tiles. Here I cut a sheet of green penny tiles and a sheet of multicolored penny tiles into strips of two different widths, then alternated them. The final result? A totally one-of-a-kind creation.”

—David Bromstad, *Color Splash*

### quick tip

You can cut mesh-backed penny tiles with household scissors—no special equipment required.

**TILES:** ModDotz porcelain round penny tiles in key lime and Pacifica, \$13 for each sheet of 224, [modwalls.com](http://modwalls.com)
