Hello Pretties,

Was the weekend great? I hope so. The weather was so nice in The A, not very winter-like but really nice. Which got me to thinking about Springtime and sprucing up your space. New furniture? New pillow? Well look no further than the new David Bromstad Home Collection at Grandinroad. David Bromstad was the first winner of HGTV's Design Star. He's known for his bold and cutting edge use of color! This is a modern and colorful collection with price points from \$19 to \$1599 with beautiful products for bed, bath, and living spaces. Take a peek!

These pieces are more modern but David has designed them to easily fit into any home decor with a range of colors and finishes. My choices from the David Bromstad Home Collection? The Paris Market Table and the Aries Table rock. Accent pieces, such as accent tables, can really bring that extra something to a room. You can shop for your lovely space at [Grandinroad](#).
