### Hang your cleaning supplies

You know how it goes: You reach for a bottle of Lysol in a cabinet under the kitchen sink and end up knocking over a stack of sponges, Windex spray, and a feather duster. "Instead, buy a cheap shoe rack made of clear plastic and hang it on the back of a closet or bathroom door," says David Bromstad, host and mentor on *HGTV Star*. "Then put one cleaning supply in each pouch, so you can spot each one easily and grab it quickly when you need it without making a mess. I have one hanging on the back of my utility closet door."
